

VAIBHAV KUMAR

Frontend Developer | React.js | Next.js

📞 8094270183 🔗 Portfolio 🌐 GitHub 🔗 LinkedIn
✉ vaibhavg2474@gmail.com 📍 Jaipur, Rajasthan, India

Profile

Software Developer with 4+ years of experience building scalable, production-ready web applications using React.js, Next.js, TypeScript, and AWS. Skilled in developing reusable UI components, integrating REST APIs, implementing secure authentication, and delivering enterprise solutions across cloud, Salesforce, and modern frontend ecosystems.

WORK EXPERIENCE

07/2024 – Present
pune, Maharashtra

Qudasoft

Software Developer

- Developed and maintained enterprise customer portals using React.js, Material UI and AWS services, primarily focusing on frontend development while collaborating with backend and Salesforce teams.
- Built scalable UI components, integrated REST APIs, authentication, payment gateway and file management features using AWS Cognito, S3 and related cloud services.
- Collaborated with QA, designers and product teams to deliver production-ready features using Git and Productive for task management

01/2023 – 04/2024
Ahmedabad, Gujrat

Incipient Infotect

ReactJs Developer

- Developed modern web applications using React.js and Next.js, primarily focusing on frontend development, reusable components and REST API integration.
- Contributed to blockchain and marketing platforms by implementing new features, wallet integrations, bug fixes and UI enhancements while collaborating directly with clients.

11/2021 – 11/2022
Ahmedabad, Gujrat

Solulab

ReactJs Developer

- Developed and enhanced blockchain-based web applications using React.js and Next.js by implementing frontend features and integrating backend APIs.
- Worked on existing production projects, resolving bugs and delivering new functionality in collaboration with senior developers.

02/2021 – 11/2021
Noida, Uttar Pradesh

Pepcoding

Web Developer

- Gained hands-on experience with JavaScript, Redux, Firebase, REST APIs and Git through real-world projects and mentorship.

EDUCATION

07/2017 – 07/2021
Mahendergarh,
Haryana

B-Tech(CSE)

CENTRAL UNIVERSITY OF HARYANA
Over all CGPA 7.7

07/2015 – 07/2016
Sambhar Lake, Jaipur

Higher Secondary Education

GOVT. DARBAR SEN.SEC. SCHOOL
82.00%

Skills

Frontend

React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, SCSS, Material UI, Tailwind CSS, Redux, Redux Toolkit, Context API, Redux Saga

Backend

NodeJs, Express, REST API, MongoDB

Tools

Git, VS Code, Docker, Jira, Productive

AI Tools

ChatGPT, Claude, Codex

AWS & Cloud

AWS Amplify, Cognito, Lambda, API Gateway, S3, DynamoDB

LANGUAGES

English

Full Professional Proficiency

Hindi

Native or Bilingual

PROJECTS

Qudasoft | PRIME CORPORATE SERVICES [🔗](#)

React.js | AWS Amplify | Cognito | Material UI | Redux Toolkit | Salesforce | Node.js

- Developed a large-scale enterprise customer portal from scratch using React.js, Material UI and AWS Amplify, primarily focusing on frontend development and reusable component architecture.
- Implemented passwordless authentication using AWS Cognito with Salesforce user validation, integrated 30+ REST APIs, and built complex multi-step survey and checkout workflows.
- Integrated the NMI Payment Gateway with secure card tokenization and AWS S3 for document upload/download functionality.
- Built a configurable Survey Builder CMS using Salesforce LWC, Apex and custom objects, supporting dynamic question types, validation and conditional logic.
- Developed an Excel export module using ExcelJS for survey responses and collaborated with backend, Salesforce, QA and design teams to deliver production-ready features.

Qudasoft | WSB PORTAL [🔗](#)

React Js | Material UI | Redux toolkit

- Enhanced Speaker, Event and Proposal modules by developing new features, fixing production issues and improving UI/UX.
- Optimized frontend performance and integrated backend APIs to deliver responsive and production-ready user experiences.

Incipient Infotech | CARDANORACERS [🔗](#)

Next.js | React.js | Material UI | Cardano Wallet | Unity WebGL

- Developed the frontend of a blockchain NFT racing platform using Next.js and React.js, building 10+ pages and 15+ reusable UI components.
- Integrated multiple Cardano wallets (Nami, Eternl, and Lace etc wallets) to support wallet connection, NFT minting, purchases and blockchain transactions.
- Built race registration, NFT collection, leaderboard and Nitro token modules by integrating backend APIs and blockchain services.
- Integrated Unity WebGL gameplay with the React application, enabling seamless interaction between frontend, backend APIs and blockchain workflows.

Incipient Infotech | LIKES.IO [🔗](#)

NextJs, Redux, Material UI

- Developed and enhanced responsive marketing pages using Next.js, React.js and Material UI.
- Worked with SSR, SSG and Client-Side Rendering (CSR) while integrating backend APIs and reusable UI components.
