SKILLS

ReactJs | Nextjs | Redux | Javascript | Html | css | SCSS | Typescript | Git | Material UI |
Java | Salesforce: Apex, LWC, SOQL | AWS Amplify

PROJECTS

PRIME CORPORATE SERVICES

(ReactJs, Aws Amplify, Salesforce: LWC, APEX, SOQL)

- Developed a full production-ready web application (Prime Web) from scratch using React.js, focusing on scalable architecture, reusable components, and modern front-end practices.
- Worked on Salesforce at the admin and UI level by building custom Lightning Web Components (LWC) to improve CRM workflows, user experience, and system efficiency.

WSB PORTAL

(ReactJs, Material UI)

- Worked on the WSB Proposals and Event Portal, fixing and improving event page functionality and resolving UI/UX issues to enhance user experience.

CARDANORACERS [↗](#)

(ReactJs, NEXTJS, Material UI)

- Cardanoracers is a cardano blockchain platform where user can buy nfts and participate in race using them and can win ADA in wallet
- worked on the whole project both Admin and User side from scratch, managing nfts collections, wallet and integrate blockchain APIs and nodejs Backend APIs, individually

LIKES.IO

(NextJs, Redux, Material UI)

- Likes.io is a social media marketing platform that helps users grow their presence on various social media platforms mainly instagram
- Worked on the whole project from scratch, individually

ENVERX

(ReactJs, Redux saga, Bootstrap)

- A web3 web application where project developers can add details of their projects and investors can invest in them
- Worked on both admin and user side
